

To whom it may concern,

My name is Dr. Kevin D. Richardson, I am an Orthopaedic Spine Surgeon in San Antonio, TX. This letter is being written in support of a revolutionary product design and/or technique. The Tornado screw removal system. The Tornado makes removing pedicle screws seamless. I have used other systems and they all fail in comparison in regards to ease of use and reproducibility. It's a brilliant idea. No hardware removal set will be complete without this device. I have no reservation in recommending this product to other spine surgeons.

Sincerely,

  
Kevin D. Richardson D.O.
